

Feedback from staff development session: Recording in-person teaching

Completion time	Email	Which session did you attend? (Don't worry if you don't know the full title, the topic will be ok!)	What was your overall opinion of the session?	How did you feel about the length of the session?	How did you feel about the content of the session?	How did you feel about the delivery?	What did you find useful in the session?	What would have improved the session?	Please let us know about any other training you would like to see from the CSM Digital learning team.
12/16/24 12:23:40	anonymous	Recording in-person teaching	Great	Great	Great	Great	It was a new way to support the students so I enjoyed learning about that, especially if we can think about using this to at least help the students with disability needs	Can't think of anything :) it was really informative without feeling like an overload of information :)	More training regarding adjustments for support needing students + trainings regarding excel code (how to make smart trackers etc)
